Proceedings of the Government of Mysore,

READ —

Letter No. 808—92, dated 4th September 1896, from the Inspector General of Police in Mysore, reporting that there is at present no uniformity of practice as regards the charges incurred by the police, &c., in conveying to Magistrates' courts, property required for purposes of evidence, and requesting that an authoritative ruling may be made in regard to the same

No. 4782-91—J. 537, DATED, BANGALORE, 13TH OCTOBER 1896.

ORDER THEREON.—Where the articles are easily portable, the existing practice under which the party interested or the police, convey them to the Magistrates' courts, should be continued. Where the articles are bulky and it is found necessary to engage a cart to convey them, and the party interested is unable to make arrangements for the transmission of the same to Magistrates' courts, then the cart-hire should be paid by the Magistrate out of his office contingencies on a bill to be presented by the police supported by vouchers and a certificate showing the necessity for incurring the charge.

District Magistrates
The Registrar, Chief Court of Mysore.

READ:—

Letter No 13228—J. 1515 of the 8th June 1896, from the Secretary to the Government of Mysore, General and Revenue Departments, to Registrar of the Chief Court of Mysore

I am directed to request you to be so good as to lay before the Judges of the Chief Court the following reference under Section 46 of the General Stamp Act.

2. A document executed by Sivalingappa and Vasappa, sons of one Channagiri Krishnappa, and attested by one Ramappa, the third son of the said Channagiri Krishnappa, with the remark that he had no objection to the transaction, was presented for registration to the Sub-Registrar of Davangere. The Sub-Registrar considered the attestation by Ramappa, a separate transaction and referred the matter to the District Registrar for orders as to whether the same should be impounded. The District Registrar, in his capacity of Deputy Commissioner or Collector, ordered the levy of an additional fee and also a penalty, and reported the matter to Government

3. As the Government entertain a doubt as to the legality of the order passed by the Collector and are inclined to think that the attestation of the said Ramappa cannot be regarded as a separate transaction, it is deemed necessary to make this reference with a view to obtain from the Chief Court an authoritative ruling or opinion on the point.

4. The question raised is, whether the attestation of a witness on a duly stamped document, with the remark that he has no objection to the transaction evidenced by the said document, should be treated as a separate or additional document liable to a fresh stamp duty and penalty.

5 The original document is enclosed to be obligingly returned with the opinion of the Court.

Opinion of the Chief Court in referred case No. 10 of 1895-96, forwarded with the Registrar's letter No. 2050—96, dated 2nd October 1896.

In the Chief Court of Mysore at Bangalore, Wednesday the 23rd day of September 1896.

Present.

Mr. Justice J. W Best, Chief Judge.
Mr. Justice A. Ramachandra Iyer, Judge, and
Mr. Justice C. Meenakshaiya, Judge.

Referred Case No. 10 of 1895-96

READ.—Letter No. 13228—J. 1515, dated 8th June 1896, from the Secretary to Government, making the following reference under Section 46 of the General Stamp Act and soliciting an authoritative ruling or opinion of the Chief Court on the point

Opinion.

We agree with the Government. There was no separate consideration for the attestation of Ramappa. The transaction was a single one and there was unity of consideration. Ct. I. L. R., 1 Madras, 133.

No. 4974-82—J. 566, DATED, BANGALORE, 26TH OCTOBER 1896.

ORDER THEREON.—Ordered that copies of the foregoing communications be forwarded to the Deputy Commissioner of Chitaldrug, with reference to his letter No. 779—490, dated the 27th March 1896, and to the Deputy Commissioners of the other districts for information and guidance.

Statements of incomplete works undertaken from District Funds amounting to Rs. 2,081 requiring appropriation during 1896-97, submitted with docket No. 166, dated 7th September 1896, from the Deputy Commissioner of the Kadur district.

No. 4610-12—L F. 60-96, DATED, BANGALORE, 3RD OCTOBER 1896.

ORDER THEREON.—The Deputy Commissioner is authorized to push on the execution of the works referred to in the statements A. and B. received with the above, as per particulars given therein. The cost of items 11, 12, 13 and 14 in statement A. will, as proposed, be met from the provisions of Rs. 500 and Rs. 1,000, respectively, made in the current year's District Fund budget under the heads "C. X (4) Destruction of bushes, &c.," and "C. V Maintenance of travellers' bangalos and musafirkhanas." But the proposal to meet the balance Rs. 1,911 from "the closing balance," which is less than the prescribed minimum balance as already pointed out in Proceedings No 2764—L. F. 29-96, dated 27th August 1896, cannot be sanctioned. The Deputy Commissioner is, therefore, requested to submit a re appropriation statement in order to meet the sum of Rs. 1,911 by postponing, if necessary, the new works for which provision exists in the current year's budget.

RECEIPTS.

The correct total receipt under " VII. Other taxes, Mohatarfa, " as per details furnished, amounts to Rs. 660 and not Rs. 460 as erroneously entered in the budget statement No. I. The former figure will be adopted. The total annual income, as estimated for 1896-97, accordingly amounts to Rs. 1,570, which is passed. Of this, Rs. 1,003 are proposed to be expended, leaving a balance of Rs. 567 at the end of the year.

EXPENDITURE.

The expenditure proposed calls for no remark and is passed.

RECEIPTS.

2. The Municipal Board of the Chitaldrug town expects an additional sum of Rs. 200 from the sale proceeds of building sites; also a contribution of Rs. 100 from towns-people for the construction of proper drains in certain localities. These provisions will be passed, subject to explanation as to the circumstances under which the contribution in question is proposed to be levied. In the budget of Harihar a sum of Rs. 709 has been entered as a loan and a similar sum as a grant-in-aid, expected from the sanitary budget, for filling up insanitary pits in the town. The estimates are passed.

EXPENDITURE.

3. *II. Head office.*—The total amount of contribution payable by the several municipalities in the district, except Davangere, towards the cost of establishments in the Comptroller's and Dewan's offices, as recently revised, is Rs. 304, which should be apportioned among the various municipalities as shown in column 3 of the following statement and not as entered in the budgets and shown in columns 4 and 5 thereof. The difference between the original estimates and the contribution to be made, *viz.*, Rs. 135, will accordingly be entered in the present budgets.

Docket No. 332—30, dated 5th September 1896, from the Deputy Commissioner of Shimoga :—

Government Proceedings No. 334-9—L. F. 134-95, dated 8th July 1896.

With reference to para 4 of the above, has the honor to state that the Amildar of the Shimoga taluk reports that Rs. 84 being the estimated receipts under cart-tax for 1896-97 is correctly entered according to the jamabandi accounts, while the estimated receipts as per sanctioned budget estimates for 1895-96 is incorrect, hence a large decrease under this head is visible in the current year's budget of the Holehonnur municipality.

(2) The increase under the same head in the municipalities of Honnali, Nyamti, Shikarpur, Siralkoppa and Kumsi is due to the imposition of tax on the carts belonging to agriculturists residing in municipal towns as per Government Proceedings No. 24641-50—R. F. 215-92, dated 25th June 1895.

(3) With reference to para 6, begs to state that the sum of Rs. 150 entered in the current year's budget of the Nyamti municipality under the head "X Miscellaneous (m) Contributions," is the amount of contribution promised by the people of Nyamti towards the sinking of a new well in the town.

(4) The provincial road lying within the municipal town of Sagar and the District Fund road in the Shimoga municipality are maintained by the respective municipalities.

(5) With reference to para 7, begs to state that the total amount spent in the year 1895-96 on jail guards watching the convicts working in the Shimoga municipality was Rs. 622-14-7 including the cost of dress supplied to the guards. So a round sum of Rs. 500 was provided for in the current year's budget to meet the charge of the large establishment required to watch the larger number of convicts expected to work this year in the Shimoga municipality including the cost of uniform to be supplied to them.

No. 4812-14—L. F. 134-95, DATED, BANGALORE, 19TH OCTOBER 1896.

ORDER THEREON—With reference to para 3 of the above, the Deputy Commissioner is requested to explain the circumstances under which a contribution is proposed to be levied from the towns-people of Nyamti towards the sinking of a new well in the town, while it is the duty of the municipality to provide them with drinking water.

2. An extract of para 4 from the above docket will be forwarded to the Chief Engineer with a request that he will be good enough to enquire and report why the marginally noted roads are not retained under the Public Works Department as per Government Order No. 5020-9—L, F. 77-93, dated 18th September 1893, instead of being maintained by the municipalities concerned as stated by the Deputy Commissioner. It should also be explained why no contribution on their account is paid by the Municipal Boards who maintain them.

Letter No. 306 dated 21th September 1896, from the Deputy Commissioner Hassan district, submitting for sanction a revised estimate for Rs. 1,678 for fencing with wire the drinking water reservoir at Hassan

No. 4830-1—L. F. 7-96, dated, Bangalore, 22nd October 1896.

Order thereon.—The revised estimate for Rs. 1,678 received with the above is sanctioned, in lieu of the original estimate for Rs. 748 passed in Government Proceedings No. 4593-4—L F. 1-95, dated 25th October 1895, which is hereby cancelled. Whenever a revised estimate is submitted, the amount whereof is generally in excess of the original estimate, the reasons for the excess must be briefly explained in the revised *estimate* itself.

2. The excess cost of Rs 930, required in addition to the sum of Rs. 748 spent on the work last year, will be met from the provisions of Rs. 500 and Rs 2,100 made in the current year's Municipal budget of Hassan under "VIII. No. 3974-81—R. 1367, DATED, BANGALORE, 25TH OCTOBER 1896.

ORDER THEREON.—Recorded with the following observations.

2. In the review submitted by the Deputy Commissioner, Bangalore district, for the 2nd fortnight of June 1896, it is stated that on the 27th idem the Sheristadar of the Excise Commissioner's office wrote an order direct to the Amildar of the Channapatna taluk. The Deputy Commissioner is requested to explain what this direct order has to do with the itinerary return of the Amildar. The few Amildars whose names appear in the review under reference do not seem to have gone out for more than a day, which fact does not show great activity among the Amildars of this district. The Deputy Commissioner will do well to remedy this tendency on the part of his Amildars to confine themselves to headquarters. It is sufficient if the Deputy Commissioner's review furnishes general information as to the number of days during which each Amildar was out in camp and the result of his actual inspection of villages, tanks and other places of public interest.

3. The review submitted by the Deputy Commissioner of Tumkur for the 2nd fortnight of June 1896 shows that the Amildars of Chiknayakanhalli and Tiptur and the Deputy Amildar of the Koratagere sub-taluk did not sufficiently move about in their taluks and sub-taluk.

4. The reviews of the Deputy Commissioner of Mysore for the 1st and 2nd fortnights of June 1896 were received so late as the 10th and 24th September 1896, respectively, and the reason for such a long delay has not been explained.

5. The reviews submitted by the Deputy Commissioner of Hassan do not show the number of days during which the Amildars were out in camp. This information should be furnished in future reviews.

6. The review of the Deputy Commissioner of Kadur for the 1st fortnight of June 1896 does not show the number of days the Amildars were out and the number of villages, tanks, &c, inspected by them. This information should be given in an abstract form in future reviews with the Deputy Commissioner's general observations thereon.

7. Government note with satisfaction that the Deputy Commissioner of Chitaldrug is urging his Amildars to attend to the repair of boundary marks and to tank work.

Letter No. 357, dated 18th July 1895, from the Superintendent, Revenue Survey in Mysore, with enclosures

I have the honor to submit the following proposals for the revision of the assessment of the Kankanhalli taluk, Bangalore district.

2. Classing operations were carried out by the establishments under my Assistants Mr. M. S. Narain Rao and Mr. D. Sham Rao, respectively, the former of whom has embodied his own and his co-worker's experience of the taluk in a very interesting and useful report which, together with a sketch map of the taluk, will be found appended.

3. The Kankanhalli taluk is sub-divided into the following magnis:—

No	Magnis.	Govt. villages.	Kavals.	Forests.	Alienated villages.	Total.	Remarks.
1	2	3	4	5	6	7	8
1	Kankanhalli	30	..	1	5	36	
2	Kodihalli	46	...	...	3	49	
3	Uyemballi	34	..	2	2	38	
4	Satnur	41	...	2	...	43	
5	Somanhalli	15	2	1	5	23	
6	Harohalli ...	25	2	..	..	27	
7	Maralwadi	29	2	1	..	32	
8	Mudwadi	20	...	...	1	21	
9	Tungani	27	..	...	2	29	
	Total ..	267	6	7	18	298	

4. *General description.*—Kankanhalli, in the usual acceptation of the term in Mysore, is a maidan taluk, that is to say, it is situated on the plateau of Mysore and contains no heavy forest but, as a matter of fact, nearly the whole of the taluk is very hilly, broken and rugged and, as Mr. Narain Rao observes at para 5 of his report, it would be difficult to find in any place a few square miles of level land. To the south, where the Cauvery forms the common boundary of Mysore and the Salem district, the country is exceptionally broken and contains scarcely any resident population. These unfavourable conditions prevail also, but in less degree, along the eastern portion, also subtended by the Salem district. The most open parts of the taluk are to the north and near the line taken by the old Bangalore-Mysore road *viâ* Malvalli.

5. The taluk is essentially a dry crop one, although there are one or two good tanks, notably one at Harohalli and another near Tatgupi in the Somanhalli magni. Small gardens here and there fringe the Vrishabhavati and Suvarnamukhi two useful streams which flow through the northern half of the taluk and join the Arkavati about 4 miles from Kankanhalli. The Arkavati itself is an important factor in the prosperity of this taluk and has many gardens on its banks. These gardens of mulberry and cocoanut, with occasional patches of panvel, form a pleasing break in an otherwise inhospitable looking country, but they have been formed at great cost and are maintained with much labour and deserve lenient treatment in the present revision of assessment. They are but little dependent on Government works.

6. *Soils, climate and crops.*—The soils are for the most part inferior, seldom ranging high in our scale, and are generally very shallow and rocky. The soil in fact is generally so poor that any shortness in the average rainfall is greatly detrimental to the crops. Mr. Narain Rao at para 22 of his report states the taluk to be incapable of standing either a deficient or an abundant rainfall, in the one case the crops failing and in the other the people suffering from fever. This is a

strongly expressed opinion but, from my own knowledge of the taluk and judging from the heavy mortality amongst our measurers whilst employed in Kankanhalli, I am inclined to, in a great measure, corroborate Mr. Narain Rao's views. The taluk must therefore occasionally be in a bad way, for the rainfall is by no means regular and uniform, ranging from as high in 1886-87 as 44 inches down to 16 inches in 1884-85 and 21 inches in 1885-86. The average is stated to be about 30 inches. The fall during the last 3 years has been 37, 16 and 37 inches, respectively. Of the two evils no doubt the people would prefer the abundant rainfall but either way the disadvantage of poor soils combined with a capricious climate must be admitted to exist to a considerable extent.

Of crops ragi is the staple, the others being those usual in red and sandy soils. The gardens are mulberry, cocoanut and panvel. Sugar-cane is grown in the Somanhalli and Harohalli magnis only, the ordinary rice being raised elsewhere.

7. *Communications.*—Kankanhalli is a border taluk. It holds little or no communication with the Salem district by means of roads or otherwise, there being no out-let southwards and many natural obstacles intervening eastward. The natural direction of trade is northward and Westward to join existing roads which communicate, more or less directly, with the railway system. Speaking generally Bangalore is the destination for the produce of the northern magnis and Channapatna for that of the southern magnis. The road under consideration from Kankanhalli to Anekal will, if carried out, open up the Maralvadi magni and the unopened portion of the Harohalli magni. The road from Kodihalli to Kankanhalli is of much importance as it must greatly benefit many villages which are naturally well situated east of the Arkavati river and only want an out-let. The extreme eastern and southern villages of the taluk are very badly off as regards communications, but it must be observed that the population to the east is very sparse while to the south there is scarcely any resident population at all, the extensive waste lands and forests being visited chiefly for the purpose of grazing. The disadvantage lies chiefly in the broken and inaccessible character of the country and until branch roads are made to the existing main roads the people will continue to attend to grazing in preference to agriculture. The Uyamballi and Kodihalli raiyats are stated to derive considerable profit from breeding cattle and the proximity of the Cauvery to the grazing grounds enables them to find water when it becomes scarce elsewhere. The presence of so much waste land in the tract under report is thus by no means an unmixed evil.

8. *General condition of the Raiyats.*—As regards the general condition of the people, it varies greatly. Some of the raiyats in the centre and more open part of the taluk struck me as being as well off as in any of the adjoining taluks but there is no doubt that, generally speaking, and on the average, the people of the taluk, what with the large extent of unopened country, distance from railway, and owing to the sickness which undoubtedly prevails in years of heavy rainfall, are not so well off as their neighbours in the more open taluks to the north and west.

9. *Statistics.*—A very good idea of the agricultural resources of this taluk will be conveyed by the following statement compiled from statistics collected by the classers for the Government villages under report :—

Villages.	Houses.	Population.	Sq. miles.	Cattle.	Ploughs.	Carts.	Markets.
1	2	3	4	5	6	7	8
20	12,992	63,017	428	134,668	11,421	2 676	7

With so large an area of forest and waste land the population per square mile for the whole taluk is of course very low and compares unfavorably in this respect with all the adjoining taluks. But if the occupied area be alone taken into account, the comparison with neighbouring taluks is as per margin. At the best, however, the population per square mile of cultivation is no good test of prosperity, or the reverse, so much depending upon the mode of cultivation and the average size of holdings. The number of carts is greater than might be expected in a taluk like Kankanhalli, but, as I had occasion to remark in the case of Malvalli taluk where carts were very numerous compared even with more prosperous taluks, the people are entirely dependent upon carts, the railway being distant. The condition of the people varies greatly throughout the taluk. In spite of the sickness and other draw-backs which exist, many of the Kankanhalli villages are superior to those of the Malvalli taluk which is not very favorably situated. As a whole however Kankanhalli is inferior, in my opinion, to both the Anekal and the Channapatna taluks which adjoin to the north and west respectively. It has the advantage of comparative proximity to Bangalore and to Channapatna but is less opened out than the two taluks just mentioned.

10. *How divided up by Survey.*—The next statement shows how the taluk has been divided up by survey.

Area of kavals	...	...		...	...	6,003
Total area of the whole taluk, *i. e* 687 sqare miles				...	...	439,803

An immense area of 146,073 acres is taken up by forests and 6,003 acres by kavals. The forests, five in number, contain little besides bamboos and scrub jungle. Regarding the arable land it is worthy of note that a very small proportion is still unoccupied, even of the dry crop land, while the unoccupied wet and garden land is so small as to scarcely deserve notice. To me this indicates a strong probability that, under the moderate rates which I shall farther on propose, cultivation will extend both in lands at present assessed and in those to be assessed hereafter. The small proportion of unoccupied land is decidedly a healthy indication of considerable agricultural vitality notwithstanding the bad reputation this

taluk bears in many respects. But for the unhealthiness of the taluk and the lack of roads tapping the country, so as to admit of export northwards and westward, cultivation would rapidly spread. Good branch roads are the key-stone of the prosperity of this taluk and, with their formation and consequent spread of cultivation, some considerable clearing of the jungle and improvement in sanitation may be expected.

11. *Old Average Rates.*—The next statement shows magniwar, the old average rate paid under each head dry, wet and garden, as ascertained by placing the newly ascertained survey area in juxtaposition with the old collections.

The above statement furnishes some useful information. It shows that the total weight of the old assessment was not very great on the dry lands inasmuch as the average rate actually paid was only Re. 0-10-9 per acre. The distribution of this assessment is quite another matter and great inequality of incidence no doubt exists. As regards wet lands the old assessment was decidedly heavy, an average of Rs. 4-8-6 in a taluk like that under report being in my opinion very high, when considered along with the inequality of incidence, which we know, exists. If garden and wet land be taken together, which is of course the best mode of judging, under the imperfect distinction between wet and garden in the old accounts, the average rate per acre comes to Rs. 3-8-11 per acre. I think this is a high average rate for a taluk like Kankanhalli and, as will be seen further on, my proposals will involve a slight loss under the heads of wet and garden. The average rates in columns 5, 8, 11 and 14 show great inequality, even magniwar, and this inequality is of course much more marked in the case of villages and still more in the case of individual holdings. No consideration has been shown, under the old settlement, to position or any other point, such as communications or proximity to markets, affecting the relative value of the land. This state of things is nothing unusual in any tract in which, as in the present instance, no survey of the land has ever been carried out and such classification as was attempted was vitiated by the absence of any record of area.

12. *Excess found by Survey.*—I will next show how far the old record of area can be relied on. The excess found by survey over the area as per old accounts is as follows :—

Description.	Acres by old accounts.	Acres by survey.
1	2	3
Dry	57,912	85,205
Wet	1,031	1,507
Garden	2,652	2,545
Total ...	61,595	89,257

The excess found by the survey, although by no means insignificant, is far less than what has usually been found in the case of the other talukas of the district. I am unable to explain how this comparative accuracy has been attained in a taluk where no systematic measurement has, until now, been carried out. The excess of course is considerable, especially in the case of dry land, but still it is worthy of note how comparatively little the excess is in the case of wet and garden lands.

13. *Past Revenue management.*—Of the past revenue management generally I may remark that it appears to me to compare favorably with that of most talukas hitherto settled. The rates of assessment given by the Amildar (see para 21 of Assistant's report) are absurdly high and are not borne out by the rates found actually to be in force, but the area is recorded in the accounts with comparative accuracy.

14. The realizations for the past 25 years under the head of land revenue together with the prevailing prices of the staple food grains and garden produce during the same period are shown in the subjoined statement :—

Although the general tendency has, as may be judged from the average collections of the last 5, 10 and 15 years, been towards increase, it is remarkable that in 1892-93 there has been a somewhat marked falling off. The only explanation I can find of this is in the fact that the garden assessment of the year in question shows a decrease, compared with the year previous, of over Rs. 3,000 but whether owing to land being resigned or to the assessment being lowered is not clear. The great famine did not leave its mark on the realizations so much as might be expected although there was of course a considerable falling off and the collections did not become normal till about 1884-85 from which year they have been in a very healthy condition. A remission of Rs. 8,323 seems to have been granted in 1876-77 but this is the only such record. What we have to consider however is the actual collection of land revenue and, in this view, there is no doubt that the taluk suffered considerably although not so much as I should have expected from the famine. Remissions in Mysore are not carefully recorded and, practically remissions may have been granted and yet not have been shown in the accounts. The Bijvari too is not to be relied on, years of highest bijwari showing low realizations and "vice versa". The actual collections are under such circumstances, the fairest test. In this view I would invite attention to the figures in column 5 which give a very fair revenue history of the taluk showing fairly high collections from 1863-64 up to the beginning of the Famine, then a considerable falling off and finally gradual recuperation after the close of the famine up to date. On the whole there is nothing in the revenue history of this taluk to show that the land revenue sat heavily or was collected with any special difficulty.

15. For the purpose of assessment I propose to group the villages under report as below and to adopt the maximum rates shewn opposite each group:—

Group	Villages.	Maximum dry rate.	Maximum wet rate.	Maximum garden rate.	Remarks.
1	2	3	4	5	6
I	64	2 0 0	8 0 0	8 0 0	
II	116	1 12 0			
III	87	1 8 0			

The villages of the first group are to the north nearest Bangalore and for some distance south, on and near the Bangalore-Mysore road *via* Malvalli. The second group consists of villages somewhat remote from roads but still fairly well situated, while the third group consists of villages decidedly remote and in the least accessible parts of the taluk.

16. *Occupied land.*—The rates which I have proposed give the following estimated results on the occupied land:—

Group.	Villages.	Dry crop.			Rice			Garden.			Total.		
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.

I	64	23,957	22,310	0 14 11	923	3,311	3 9 5	1,635	5,430	3 5 2	26,515	31,051	1 2 9
II	116	32,904	25,939	0 12 7	431	1,370	3 2 10	631	1,801	2 13 8	33,966	29,110	0 13 9
III	87	28,344	19,001	0 10 9	153	490	3 3 3	275	651	2 5 4	28,776	20,142	0 11 2
3	267	85,205	67,250	0 12 8	1,507	5,174	3 6 11	2,545	7,882	3 1 7	89,257	80,306	0 14 5

The average dry rate is raised from Re. 0-10-9 (see para 11) to Re. 0-12-8 an increase, considering the moderation of both rates, which will scarcely be felt. Taking wet land and garden together the old rate (see para 11) is reduced from Rs. 3-8-11 to Rs. 3-3-6. The old wet assessment was very high and the gardens, as I have already pointed out, are in very few cases dependent upon Government works of irrigation and are chiefly watered by lift. No maximum rates, consistent with those adopted in adjoining settled taluks, will provide the amount necessary to prevent some loss to Government on both wet and garden, in the present revision of assessment. The maximum rate for wet land is Rs. 8 per acre the same as was adopted for the Channapatna taluk but, considering that we are reducing the old wet assessment, I have no hesitation in adopting that rate which, in itself, is moderate.

17. *Unoccupied land.*—I next show the area and assessment of the unoccupied land available for cultivation or for assignment as free grazing.

Group.	Villages.	Dry crop.			Rice			Garden			Total.		
		Acres	Assessment.	Average rate	Acres	Assessment	Average rate.	Acres	Assessment.	Average rate.	Acres.	Assessment.	Average rate.

The total extent of unoccupied land is very small and is of less relative value, in the case of dry land, than the occupied land but the very small extent of wet land unoccupied is, judging by the classification, of very good quality. It is not worth while to enquire into the reason of its resignation which is probably a matter of accident. The unoccupied garden land requires no remark.

18. *Minor Inams.*—The extent and assessment of Minor Inam lands is exhibited in the following statement and calls for no particular remark :—

Group.	Villages.	Dry crop.			Rice.			Garden.			Total.

19. *Total results.*—Finally the result of the proposed rates for the whole area Government, occupied, waste and Inam, is contrasted below with the past collections in each group.

Group.	Villages.	By old accounts.		By Survey.							
				Govt occupied.		Govt. waste.		Inam.		Total.	
		Bijvari into khan dues	Collections.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment	Acres.	Assessment.

II	116	2,099	26,995	33,966	29,110	1,395	1,022	2,073	1,642	37,434	31,774
III	87	1,630	17,913	28,776	20,142	1,344	833	1,279	796	31,399	21,771
3	267	6,154	72,316	89,257	80,306	4,263	3,191	5,118	4,445	98,638	87,942

20. *Grazing.*—The grazing realizations in 1892-93 amounted to Rs. 5,324. I cannot safely estimate for more under the proposed settlement, as a considerable extent of the unoccupied lands will have to be assigned as free grazing and so much land has also been taken up for Government Forests that no great results can be expected under head of grazing.

21. *One anna local cess.*—The one anna local cess in 1892-93 brought in Rs. 4,768. It will now be Rs. 5,020 on Government occupied land and Rs. 277 on Minor Inam land, in all Rs. 5,297.

22. *Irrigation cess.*—The annual contribution to the Irrigation Fund will amount to about Rs. 769.

23. Excluding all calculation of Local Fund and grazing the land revenue of 1892-93 which was Rs. 72,316 becomes Rs. 80,306 showing an increase of Rs. 7,990 or a little over 11 per cent. This is a very small increase considering that Government has to pay the village officers to the amount probably of Rs. 5,000, while the raiyats cease to pay miras, at any rate to the shanbhogs. The patels seem to have never been in the receipt of any miras. The contribution to the Irrigation Fund also comes out of the assessment. If the estimated survey assessment of the occupied land be compared with the average collections of the last five years, up to 1892-93, which amounted to Rs. 74,135 the moderation of the proposed rates becomes still more apparent. In fixing the limit of the Government demand in this undoubtedly liberal manner I have been influenced by the following considerations (1) the impossibility of adopting higher rates consistently with the maximum rates in force in adjoining settled taluks (2) the inferiority of the gardens as compared with those of Channapatna (see para 9 of Assistant's report) and their dependence almost entirely upon irrigation by lift, (3) the precarious character of the rainfall taken in conjunction with the general poverty of the soil and (4) the extreme unhealthiness of the country, in certain parts and at certain times, especially in years of heavy rainfall.

24. I anticipate the best results from the introduction of the settlement for although the old assessment was not high, in the lump, excepting perhaps in the case of wet land, its distribution was most unequal.

25. I append the usual classwar statement as well as a list of Inam villages showing the kind of survey carried out in each.

26. I shall take the earliest opportunity of announcing the rates after receiving the sanction of Government to my proposals.

Report on the Kankanhalli taluk, classed by the "E" and "M" Establishments, under Messrs. M. S. Narain Rao and D. Sham Rao, respectively.

The Kankanhalli taluk occupies the south and south-east corner of the Bangalore district, and is bounded on the north by the Bangalore taluk, on the east by the Anekal taluk of the Bangalore district and Hossur taluk of the Salem district, on the south by the Hossur taluk and on the west by the Malvalli and Channapatna taluks.

2. Its length, north and south, is 40 miles and its breadth, east and west, is 27 miles. Its total area is 278,382 acres or 435 square miles, of which 111,698 acres or 174 square miles is culturable. It is compact in shape and the Head-quarters, Kankanhalli, is very near the centre of the taluk.

3. The population of the taluk is according to the last Census 71,868, being 165 per square mile of total area and 413 per square mile of cultivated area.

4. It is divided into 9 hoblis and contains 298 villages as shown below:—

No.	Hoblis.	Government villages.	Inam villages.	Forests and kavals.	Total.
1	Kankanhalli	30	5	1	36

8	Harohalli	25	...	2	27
9	Somanhalli	15	5	3	23
		268	18	12	298

5. As the figures in para 2 will have indicated, the taluk contains a large proportion of forests and waste land. A succession of hills, which almost look like a regular chain of the shape of a horse shoe, bounds the taluk on the east, south and west. Several smaller ranges branch off from this regular chain and give the taluk, especially the southern half of it, a very rugged appearance. Throughout the taluk it is difficult to find a few square miles of level land in one spot.

6. The Arkavati River, into which almost all the drainage of the taluk ultimately falls, enters the taluk about eight miles north-west of Kankanhalli, and taking first a south-eastern and then a southern course, joins the Cauvery some miles below the Sivansamudra falls. The latter river, which forms nearly half the southern boundary of the taluk, flows through hills and forests amidst picturesque scenery, and eventually cuts its way to British territories, through sheer rock. Two streams, the Vrishabhavati and Suvarnamukhi, that flow through the taluk, are important feeders of the Arkavati River. The former rises near Bangalore, and traversing the Bhairmangala hobli of the Channapatna taluk, flows through the Mudavadi hobli of Kankanhalli; and the latter rises near the Bannerghatta hills of Anekal and flows through the Maralvadi and Harohalli hoblis. Both join together and fall into the Arkavati about four miles from Kankanhalli. Two other streams that take their rise in the hills on the eastern frontier of the taluk also form minor feeders of the same river.

7. Kankanhalli is a purely dry crop taluk. There are very few tanks of good size. There is a good tank near Tatguppi in the Somanhalli hobli and another near Harohalli. The other tanks are all small and shallow. The Arkavati River is made use of, only for a narrow strip of mulberry gardens on its banks.

8. The soil is, as might be expected, generally rocky, shallow and inferior. The richer varieties are generally red, mixed more or less with sand. Black cotton soil is very rare and small patches of it were met with in only one or two villages of the Kodihalli hobli.

9. Ragi is the staple dry crop. Avaré, horse-gram, togari, castor-oil seeds and gingelly are also grown. Tobacco and chillies are grown in small patches on the margin of fields or in backyards. Rice is grown under the few tanks that are to be found in the taluk and in low lying lands irrigated by rain water. Sugarcane is grown under tanks in the Somanhalli and Harohalli hoblis, where it is always grown in preference to rice, even under small kattes, the tank water-supply being supplemented by gundis temporarily dug in the sugar-cane fields. The gardens contain chiefly cocoanut trees and mulberry shrubs. They are, however, not so numerous nor so valuable as those in the neighbouring taluk of Channapatna. Small patches of Pan-vell garden are met with here and there.

10. The rainfall varies between 15½ and 44 inches. In 1891-92 it was 15·54. In 1886-87 it was 44·23 and in 1884-85 and 1885-86, it was 15·79 and 20·59 inches, respectively. The average fall seems to be a little over 30 inches. Judging from the experience of the past five or six years, there does not, however, seem to be much uncertainty about the matter. The nature of the soil of the taluk renders it unfit to stand either an excessive or a deficient rainfall.

11. There are five reserved forests, *viz.*, Bilikal, Mugur, Chilandavadi, Kabbal and Banantimari. They contain little besides scrub jungle and bamboos.

12. The old Bangalore-Mysore road *viâ* Malvalli passes through the northern half of the taluk and through the Satnur hobli. Branch roads start off from Kankanhalli and Satnur on this line to Closepet and Channapatna and form very useful Railway feeders. Another road branches off from Kankanhalli to Kodihalli nine miles from the former and is useful for carting the surplus produce of villages, south of Kankanhalli. It is, however, not in good order now, and I believe the Public Works Department contemplate its improvement. A new road is being made from Kodihalli to Satnur. It is nearly finished as far as road making goes. Tunnels and bridges have to be built and when they are completed, the road will open up the country and enable the raiyats of the southern hoblis to cart their produce direct to the Channapatna Railway Station. The villages south and east of

Kodihalli, some of the Harohalli hobli and all of the Marlavadi hobli, are however still without any means of communication. There is a proposal to connect Kankanhalli with Anekal, under consideration by the District Fund Board. When this is done the Marlavadi hobli and the unopened part of Harohalli hobli will be opened up, but the villages of the Kodihalli hobli must, it is feared, remain as they are at least for some years to come.

13. Weekly markets are held at the Head-quarters of all the hoblis except Somanhalli and Uyamballi and at Kaglipur and Hunasanhalli. Annual fairs are held at six or seven villages. They are, however, not of much importance. The surplus produce of the northern hoblis finds its way to Bangalore and that of the southern hoblis to the Railway Station at Channapatna.

14. Ragi and other dry crop grains are transported to Bangalore. Rice and jaggory are imported from Seringapatam and Tirumakudlu-Narsipur taluks and piece-goods and salt from Bangalore.

15. Rough cloths, both for men and women, with silk borders are manufactured at Kankanhalli. The industry has, however, lost the importance it once possessed, owing to competition with machine made goods.

16. The following shows the agricultural stock of the taluk:—

13,875 Bullocks.	54,268 Sheep and Goats.
18,954 Cows.	955 Ponies and Donkeys.
7,288 Buffaloes.	1,586 Carts.

There are very fine cows and bullocks in this taluk. Herds of them graze in waste lands near villages and when pasturage and water become scarce there in the hot weather, they are taken to the reserved forests on the banks of the Cauvery. The raiyats, especially those of the Kodihalli and Uyamballi hoblis, derive considerable profit by the sale of well bred calves. There is an adequate supply of manure to fields.

17. Weights and measures are the same as in the neighbouring taluks.

18. The usual vara tenure prevails where lands are sublet.

19. A man cooly is paid 4 to 6 annas and a female cooly from 2 to 3 annas. Skilled labor commands higher rates in proportion to the above. The prices of staple grain are a little lower than in Malvalli and Channapatna taluks.

20. The shanbhogs hold inam lands in a few instances. Some receive a small salary and all get miras from raiyats. The patels enjoy no remuneration whatever.

21. The Amildar gives the following information in regard to rates of assessment prevailing in the taluk.—

Dry crop	...	...	...	Rs.	0	4	5	to Rs.	4	6	4 per kolaga.
Rice	...	...	...	„	2	2	2	to „	19	9	8 per kandi
Garden	...	...	...	„	0	11	0	to „	22	11	4 do

The averages found at test are shown below:—

Hoblis.	Dry crop per acre.			Rice per acre.			Garden per acre.		
Kankanhalli	**10**	4		3	6	**2**	2	15	11
Tungani	11	11		6	14	10	3	3	10

Harohalli	12	4		6	14	9	3	15	4
Somanhalli	1	1	11	3	9	4	4	...	6

22. The general condition of the inhabitants is not very good. Those of the southern and eastern hoblis have no good means of communications with markets. The peculiar situation of the taluk renders it incapable of standing either a deficient or an abundant rainfall. When rains are abundant, sickness prevails to a very great extent ; so much so, that the raiyats are, in a large number of cases, incapacitated to reap their crops. This was the case in 1886. On the other hand insufficient rain-fall tells upon the crops, the soil being generally poor and not capable of retaining much moisture. The kasaba, Mudavadi, Tungani, Somanhalli and Harohalli hoblis appear to be more favored, in all respects, than the other hoblis. There is scarcity of water in almost all the villages of the eastern and southern hoblis. The streams run dry in the hot weather and cattle are taken, as mentioned in para 16, to the banks of the Cauvery.

Letter No. 676, *dated* 29*th August* 1895, *from the* **Deputy Commissioner,** *Bangalore district, to the Superintendent, Revenue Survey.*

I have the honor to acknowledge the receipt of your letter No. 358, dated 18th ultimo, forwarding for opinion your report on the proposed revision of the assessment of the Kankanhalli taluk and to observe that the report being so full and complete, I have not much to add.

2. In para 14, the total collections plus the remissions, are taken as demand and the average is struck upon the collections. It has to be noted that it is very rare that the demand of a year is fully collected within that year. A sum of Rs. 2,236-4-3 was remitted in 1892 93, on account of drought in the previous year, but it does not appear in the statement appended. This may account for the decrease you alluded to in para 14.

3. The highest revenue was in the year 1885-86 and amounted to Rs. 76,665 Five years' average was Rs. 74,135. For comparing the increase by the present proposed settlement, the revenue of the year 1892-93 is taken at Rs. 72,316, which includes Rs. 851, sale proceeds of occupancy right and fine for unauthorized cultivation, while as per returns of this office, Rs. 71,452, only represent the total Nagadiyat Land Revenue demand. Taking Rs. 71,452 as the revenue, the increase will be 12, instead of 11 per cent, stated in para 23 of your report to Government. But if five years' average 74,135 or 10 years' average 73,502 is adopted, increase in percentage will be only 8 per cent on five years' average and 9 per cent on that of ten years. Calculating the net increase after deducting probable potgi amount and the allotment to the Irrigation Fund, the net increase will be only ·5 per cent over five years' average and 1 per cent over ten years' average, as worked out in the margin. This compares unfavorably with the result of settlement in the adjoining taluks of Anekal, Malvalli and Channapatna and in the taluk of Magadi, which in some parts resembles Kankanhalli.

Probable revenue by settlement.	Deduct potgi and allotment to Irrigation Fund.	Balance.	
80,306	5,769	74,531	
		Difference over	
5 years' average.	10 years' average.	5 years' average.	10 years' average.
74,135	73,502	396	1,029

4. Para 11 gives the present, and para 16 the proposed average rates. The present average rate for rice-garden lands is Rs. 3-8-11 per acre and you propose to reduce it by Rs. 0-5-5. Considering the absence of large irrigation works, and the dependance of rice and garden cultivation chiefly on irrigation by lift and rain, I fully concur with you that the rice and garden lands are deserving of favorable rates.

5. As regards the rate for dry lands which you propose to fix at Re. 0-12-8 on the average, I would have advocated that it should be slightly improved, as the

settlement now proposed will result in a very poor gain with regard to the proposed dry rates; the calculations below show how they compare with the existing rates.

Present cultivation revenue.		Revenue at the proposed survey rates.		Difference.
Dry	57,046	56,481		—565
Rice	6,831	5,174		—1,657
Garden	7,588	7,882		+294
Total...	71,465	69,537		—1,928
		Add Potgi	...	5,000
		Do Irrigation cess	...	769
			Net loss...	7697

Now the present average rate is shown to be Re.0-10-9 in para 11. This is evidently obtained by striking the average on Rs. 57,046, the dry revenue from Nagadiyat cultivation on 85,205 acres of dry land, (see para 11 of letter, under reply). This area is believed to include the *Nagadiyat* occupied *Hulbanni* lands. Their area as per revenue accounts, is 9,429 acres yielding Rs. 1,089 and adding the ratio of 47 per cent of increase by survey measurement, it will be about 13,860 acres. Distributing the revenue of Rs. 57,046 on occupied cultivated area of 71,345 =(85,205-13,860) the average obtained will be Re. 0-12-9, while the proposed average rate is Re.0-12-8, showing a loss of one pie per acre or a decrease of Rs. 7,697 by the settlement, unless the *Nagadiyat Hulgaval* lands are taken up on *Cultivation* rates. As for the present average rate which you take at Re. 0-10-9, an increase of Re. 0-1-11 is given proportionately, therefore for $12\frac{3}{4}$ annas, which seems to be the correct present dry average rate, an increase of $2\frac{1}{4}$ annas is to be allotted, which will bring up the rate to 15 annas. This is higher than the average rate for the favorably circumstanced taluk of Channapatna, where it is Re. 0-13-1 though lower than Magadi where it is Rs. 1 0-6. The adoption of this rate of 15 annas, will bring a net increase of Rs. 13,032 or 17 per cent over the five years' average, in the event of all the *Hulgaval* holdings are taken up or will cause no loss if they are not taken up. But considering the climatic disadvantages, the sparseness of population, want of proper communications and the broken nature of the country, I am not prepared to recommend such a high rate or a higher rate than what you propose. For last week, I went to the taluk to form a fair idea of country and from what I saw and heard I had to change my opinion formed originally on the figures above set forth and found that the taluk could not pay anything higher than what is now proposed by you.

6. In para 20 of your report, the grazing realizations of 1892-93 are given at Rs. 5,324. This I am informed, includes the assessment (Rs. 1,089) of lands held on Hulgaval tenure, and the sale proceeds of Amrut amounting to Rs. 2,502. The actual realizations from the sale of pastural right amounted to Rs. 1,617 which is not susceptible of improvement for the reasons given by you.

Letter No. 516, dated 11th September 1895, from the Superintendent, Revenue Survey in Mysore.

I have the honor to forward papers as per margin relating to the revision of the assessment of the Kankanhalli taluk of the Bangalore district.

1. Survey Superintendent's letter No. 357, dated 18th July 1895, wit its accompaniments.
2. Bangalore District Deputy Commissioner's letter No. 676, dated 29th August 1895.

2. The correspondence ends with letter No. 676 of the 29th August 1895, from the Deputy Commissioner, Bangalore, to whom I had, as usual, sent my report for opinion before finally submitting it to Government.

3. It is satisfactory to find that the Deputy Commissioner distinctly expresses his concurrence in the suitability of the proposed rates but not, however, until he had raised some minor points for discussion which I will briefly explain.

4. The Deputy Commissioner is, I think, in error in setting down Rs. 2,236-4-3, as remitted in 1892-93. That amount is not shown as remission in the collection statement originally furnished to me by the Amildar, through the Deputy Commissioner and the former now writes on the 8th ultimo, that the amount in question represents the assessment of lands resigned owing to a bad season. It is clear that the realizations of 1892-93, exhibit a falling off which, whether due to remissions or to resignations, is attributed to the same cause, that is, a bad season. The point is really not one of any great significance and is certainly not one which would induce me in any way to alter or modify the proposals which I have made for the settlement of the taluk.

5. I find some difficulty in following the mode of reasoning and calculation adopted by the Deputy Commissioner at para 5 of his letter. Apparently he is under the impression that all the Nagadiyat Hulgaval lands have been included in the area returned by survey as occupied dry land. I issued instructions during the measurement of the taluk, that purely hulgaval lands were to be excluded as far as possible from the arable area and this has, as far as possible been done, but I have no doubt that some hulgaval lands have unavoidably crept into the occupied area—indeed I have no doubt that some of them are actually under cultivation. By far the greater portion of the hulgaval lands have, however, been included, outside the occupied area, in " kharab." There need be no apprehension that the area, which I have taken as occupied, is other than land which will willingly be retained at full survey rates; indeed it is my opinion that at the settlement application will be made to hold at full survey assessment hulgaval lands now entered as unculturable. My estimate that the dry area now recorded as occupied which was paying an average rate of Re. 0-10-0 will hereafter be retained at an average rate of Re. 0-12-8 is as near the truth as an estimate of the kind can be, and so far as any question of loss of revenue is concerned may be safely accepted.

6. I am glad to find that the Deputy Commissioner at para 4 of his letter agrees with me in my lement treatment of the wet and garden lands, especially the latter.

7. I must note that in the collection statement at 14 of my report the figures for 1863-69 to 1883-84 inclusive, have been compiled for the taluk before the transfer to it of the Satnur magni. The collections of that magni should have been obtained by the Amildar and embodied in the collection for the whole 25 years but this he failed to do. From 1884-85 to 1892-93 inclusive the collections are for villages now actually to be settled. The average calculations for the first 15 years given in my report are valueless for purposes of comparison and must be put out of sight. The average collections for the last 10 years (Rs. 73,502) are vitiated by the inclusion of one false year and the average for the last 9 years Rs. 74,597 may be substituted. My calculations are in no way disturbed by the above omission but I have thought it right to bring the matter to notice. Excepting that the proposed settlement may appear a shade more lenient, no harm has been done.

8. I gave my reasons very fully at para 23 of my report for keeping the proposed rates in this taluk somewhat low and I think it is very clear that in the main, the Deputy Commissioner concurs in what I have done. We shall ensure for a somewhat outlying and border taluk a settlement decidedly advantageous to the raiyats and which, although giving no great gain to Government, at any rate, even after providing for the pay of shanbhogs and patels and contributing to the Irrigation Fund, involves no loss.

9. During the introduction of the settlement I shall endeavour to protect Government interests in date trees by reserving and resuming them from private enjoyment where the occupant is not, under the usual terms of the settlement, fully entitled to the trees.

10. With the above remarks I can confidently recommend the proposed settlement for the favorable consideration of Government and await sanction.

No. 3613-16— R. F. 79-95, DATED, BANGALORE, 2ND OCTOBER 1896.

ORDER THEREON.—The papers read above contain proposals for the revision of the assessment of the Kankanhalli taluk.

2. There are 298 villages in the taluk of which 18 are inam, 7 forest, 6 kaval and 267 Government villages.

3. Kankanhalli is a maidan taluk, containing no heavy forest. The whole of it is however so very hilly, broken and rugged, that it is difficult to find even a few square miles of level land in one spot. The taluk is a dry crop one though there are one or two good tanks in it. Along the banks of the streams the Vrishabhati and the Suvarnamukhi, which with the Arkavati run through this taluk, are to be found many gardens of mulberry and cocoanut. These gardens, however, are but little dependent on Government works and are stated to have been formed at great cost and maintained with much labor. The soil is generally inferior, shallow and rocky and is incapable of standing either a deficient or an abundant rainfall. The rainfall which is 30 inches on the average is however not regular and uniform, ranging from 44 to 16 inches. The crops suffer in years of deficient rainfall, and the people suffer from fever when the fall is abundant.

4 The taluk is an outlying one with few natural facilities for communication with the British Territories in the south and east. The direction of trade is therefore northward and westward towards Bangalore and Channapatna. The repair of the road from Kodihalli to Kankanhalli, the completion of the road from Kodihalli to Sathanur and the opening of the projected road from Kankanhalli to Anekal, as well as of branches to the existing main lines are recommended by Colonel Grant as essential for opening out the interior of the taluk and connecting it with the outlets of trade. These will be commended for the early attention of the Chief Engineer and the District Fund Board.

5. With the large area of forest and waste land in the taluk, the population per square mile, *viz.*, 165, is of course very low and compares unfavorably with the adjoining taluks. The condition of the people varies in different parts of the taluk, but on the whole, it must be said that with the disadvantages of unopened country, distance from railway and sickness which prevails in years of heavy rainfall, the people are not as well off as those of the neighbouring more open taluks. The extensive waste lands and the proximity of the river Cauvery, however, are very favorable for the breeding of cattle of which there are some fine specimens in the taluk.

6. Paras 11 to 14 of Colonel Grant's Report of the 18th July 1895 contain statistics as to the old average rates of assessment, the excess in area found by the Survey and the realizations under Land Revenue during the past 25 years. In regard to the last, however, it is brought to notice that the figures shown in Colonel Grant's statement for the years 1868-69 to 1883-84 do not include the collections from the Satnur hobli which was subsequently transferred to the taluk. This omission diminishes somewhat the value of this statement, but Colonel Grant explains that the figures for the last 9 years in the statement being correct, his calculations are in no way affected by the omission.

7. For purposes of the settlement, the Superintendent, Revenue Survey, proposes to divide the villages into 3 groups, the maximum rates proposed for each group being as shown below :—

Group.	Villages.	Maximum dry rate.	Maximum wet rate.	Maximum garden rate.
		Rs. a. p.	Rs. a. p.	Rs. a. p.
I ...	64	2 0 0		
II ...	116	1 12 0	8 0 0	8 0 0
III ..	87	1 8 0		

8. These rates compare as follows with the maximum rates sanctioned for the neighbouring taluks of Channapatna and Anekal :—

Group.	Kankanhalli									Channapatna.													Anekal.								
	Dry.			Wet.			Garden			Dry	Wet.								Garden			Dry.	Wet.			Garden.				
											Ordinary			River Channel												Tank.			Well		
	Rs.	a	p.	Rs.	a.	p.	Rs.	a	p	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
1st Group	2	0	0							2	2	0	8	0	0	9	0	0	10	0	0	2	8	0	8	8	0	12	0	0	8	0	0
2nd do	1	12	0	8	0	0	8	0	0	1	14	0	8	0	0	9	0	0	10	0	0	2	4	0	8	0	0	12	0	0	8	0	0
3rd do	1	8	0							1	10	0	8	0	0	8	0	0	10	0	0	....			....			....			..		

9. The proposed rates when applied to occupied area, as ascertained by the Survey Department, give the following *average* rates per acre :—

	Present.			Proposed.		
	Rs	a.	p.	Rs.	a.	p.
Dry	0	10	9	0	12	8
Wet	3	8	11	3	6	11
Garden				3	1	7

10. The average dry rate of assessment of Re. 0-12-8 per acre, which is expected under the proposed settlement is in itself moderate and compares favorably with the rates prevailing in neighbouring taluks. The old wet rate averaged so high as Rs. 4-8-6, per acre, while the average on the wet and garden lands taken together (which gives the best means of judging owing to the imperfect distinction between wet and garden in the old accounts) was Rs. 3-8-11. Colonel Grant thinks that even this latter rate is too high for the circumstances of the Kankanhalli taluk and has accordingly proposed rates which give an average of Rs. 3-6-11 for wet, and Rs. 3-1-7 for garden lands. The *maximum* rates compare favorably with those imposed for the adjoining taluks of Channapatna and Anekal.

11. The result of the proposed settlement is exhibited in the following statement, compared with the collections in each group for 1892-93 :—

Group.	Villages.	By old accounts.		By survey.							
		Bagari into Khandis	Collections.	Government occupied.		Government waste.		Inam.		Total.	
				Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
I ..	64	2,425	27,408	26,515	31,054	1,524	1,336	1,766	2,007	29,805	34,397
II ..	116	2,099	26,995	33,966	29,110	1,395	1,022	2,073	1,642	37,434	31,774
III ...	87	1,630	17,913	28,776	20,142	1,344	833	1,279	796	31,399	21,771
3	267	6,154	72,316	89,257	80,306	4,263	3,191	5,118	4,445	98,638	87,942

12. The estimated revenue on the Government occupied land (Rs. 80,306) shows an increase of Rs. 7,990 or a little over 11 per cent on the revenue of the year 1892-93, which however was a year of low collections owing to the remissions

granted on account of the drought of the previous year. Compared with the average of the five years ending with 1892-93 *viz.*, Rs. 74,135, the estimated increase of revenue by the survey is Rs. 6,171. Deducting therefrom the remuneration payable to village officers which is estimated at Rs. 5,000 and Rs. 769 as contribution to the Irrigation Fund, the net increase in revenue is Rs. 402 or ·5 per cent on the average collections of the past five years. Colonel Grant has, in para 23 of his Report of the 18th July 1895, enumerated the various considerations which have led to his fixing the Government demand in such a liberal manner and in his subsequent communication of the 11th September 1895, he remarks—"We "shall ensure for a somewhat outlying and border taluk a settlement decidedly "advantageous to the raiyats and which, although giving no great gain to Gov-"ernment, at any rate, even after providing for the pay of shanbhogs and "Patels and contributing to the Irrigation Fund, involves no loss."

13. The Deputy Commissioner has expressed his concurrence with the Survey Superintendent as to the suitability of the proposed rates of assessment. It is noted that the old Nagadiyat Hulgaval tenure will cease on introduction of the survey, lands held on such tenure being either assessed at full survey rates, or left unassessed for sale of annual pasture, &c. Such a provision for annual pasture to be acquired by sale will be of special benefit to a taluk in which considerable cattle breeding is carried on and will also help to conserve large areas of date groves which are of such special value to the Government toddy revenue. There need be no apprehension however, Colonel Grant thinks, that any of the lands now taken as occupied will not be willingly retained at full survey rates; indeed, it is his opinion that "at the settlement application will be made to hold at full survey assessment Hulgaval lands now entered as unculturable."

14. Having regard to the quality of soil, the sparseness of population, the uncertainty of rainfall and the general unhealthiness of the tract, the Government resolve to accept the Survey Superintendent's recommendations and to sanction the introduction of the proposed settlement with the usual guarantee of 30 years.

15. The assurance of the Survey Superintendent, that during the introduction of the settlement, the interests of Government in date trees will be reserved to the utmost extent possible, is accepted with satisfaction.

Proceedings of the Government of Mysore,

READ —

Letter from the Deputy Commissioner, Mysore district, No. 475 dated 3rd September 1896, submitting explanation as regards the decrease in the estimated Abkari revenue of the Mysore taluk for the year 1895-96 pointed out in Government Proceedings No 10966-71—R 4322, dated 15th June 1896.

No. 3674-75—Ex. 143, DATED, BANGALORE, 4TH OCTOBER 1896.

ORDER THEREON.—The Deputy Commissioner now explains that the falling off of Rs. 1,04,493 in the estimated Abkari revenue of the Mysore taluk for the year 1895-96, as compared with the actual demand for the previous year, was due to the non-inclusion in his estimates of the still-head duty on arrack in that taluk, and that the actual duty for the year 1895-96 amounted to Rs. 1,07,957. The total actual demand under all heads of the Abkari revenue for the whole district for the year 1895-96, as now reported by the Deputy Commissioner, amounts to Rs 6,04,310, being in excess of the demand for the year 1894-95 by Rs. 20,320.

FOREST.

Proceedings of the Government of Mysore,

READ :—

The following letter No. 1076—101, dated the 8th September 1896, from the Conservator of Forests in Mysore.

I have the honor to forward for approval and publication in three issues of the *Mysore Gazette* the boundary statements of the below noted State Forests and Plantations in the Mysore district :—

FORESTS.	PLANTATIONS.	
1. Begur.	1 Kanapur teak.	8. Kapila No II. teak.
2 Amur Mangudi.	2 Nisseu do.	9. Bisappankatte sandal.
3. Methappa	3. Anechankur No III teak.	10. Hampapur do.
4. Kakankote	4 Manchegaudanhalli do.	11 Padalapur do.
5. Viranhosahalli	5 Amrut Mahal No. I do	12. Maddur gall-nut.
6. Chamrajnagar.	6. Do No. II. do	13. Hongehalli.
	7. Kapila No I. do.	

2. The boundaries of the first five forests and also of Bandipur and Berambadi were notified by the late Conservator of Forests so far back as November 1877, under Section 5 of the Forest Rules then in force, and subsequently boundaries of the portions added on to those forests, as well as those of the newly constituted Chamrajnagar forest were gazetted by the late Inspector General of Forests in 1888 and 1889, under Section 9 of the current rules. The statements now submitted are consolidated and give the boundaries of each forest complete.

3. The publication of the boundaries of Bandipur and Berambadi forests in the Gundlupet taluk must be deferred till the boundary dispute referred to in the late Inspector General's letter No. 3612—282, dated 7th May 1895, to your address, is settled, and a final line agreed upon and laid out I therefore beg that the Madras Government may, if necessary, be moved for an early settlement of the matter as infractions of Forest Rules in the above Reserved Forests, or the portions added on from the adjoining District Forests are not treated by the Magistracy as offences within State Forests until their boundaries are duly promulgated by Government under Section 9 of the Forest Rules.

No. 3572—Ft. F. 166-95, DATED, BANGALORE, 1ST OCTOBER 1896.

ORDER THEREON.—The boundary statements referred to in para 1 will be duly published in the *Mysore Gazette* as desired by the Conservator of Forests.

2. Under Section 9 of the Forest Rules of 1878 the proclamation of the demarcation and boundaries of every forest and plantation should be made in the taluk where the forest or plantation is situated. The Conservator of Forests is requested to see that this is done.

3. With reference to para 3 of his letter the Conservator's attention is invited to this office letter No. 2838—Ft. F. 129-95, dated 14th September 1896, from which it will be seen that the question of the disputed boundary between Mysore and the Nilgiri-Wynaad has already engaged the attention of the Madras Government and will soon be settled by the Committee appointed for the purpose.

Notification No. 3573—*Ft. F.* 166-95, *dated, Bangalore,* 1*st October* 1896.

Under the provisions of Section 9 of the Forest Rules of 1878, the Government of Mysore are pleased to declare that the undermentioned demarcated and settled Forests and Plantations in the *Mysore district* shall be classed as State Forests under Rule I of the aforesaid Forest Rules :—

No.	Names of Forests and Plantations.	Area.	Boundaries.
1	Begur Forest, (Heggaddevankote taluk.)	About 42 sq. miles.	North.—Following the river Kabbani eastward up to Gantur the demarcation line runs in a south-easterly direction along the north eastern boundary of No. 1 to the southern boundary of No. 6 of Gantur ; thence east through No. 47 of Hosahalli and then along the southern boundary of No. 55 of Bananhalli and the southern boundary of No. 48 of Begur both of which it excludes and then follows the boundary No. 1 of Kenchenhalli which it also excludes and terminates at Wadalihalla South.—Malabar State Forest. East.—Wadalihalla West.—The Kabbani river.
2	Ainur, Marigudi Forest.	About 38¾ sq. miles.	North.—Starting from Wadalihalla along the south-western boundary of No. 36 of Bankavadi the line crosses a small corner of the latter across a small portion of S. No. 35 and including over half of No. 34 of Bankavadi, then along southern boundary of No. 2 of Chikkabasige which is excluded and then running through Nos. 8 and 11 of Mahyur and through No 38 of Herchalli and through Nos. 27 and 28 of Karnagal and strikes then in a north-easterly direction through No. 6 of Alanahalli to the Nuggu river. South.—State Forest of Malabar. East.—The Nuggu river. West.—Wadalihalla.
3	Metikuppe Forest	40 sq. miles.	North.—Murkal road from the junction of the demarcation line of Viranahosahalli State Forest with Murkal road from Hunsur up to the junction of Murkal road, cart-track from Sollapur and the source of Berhebbahalla, on the north-east by Berhebbahalla, which meets the demarcation at 1¼ miles from its source South.—Kakankote State Forest. East.—Newly cut demarcation line of 1886 runs southward from Berhebbahalla passing through the following places :—(*a*) Masikattehebbahalla, 3 furlongs from Masikatte, (*b*) Kurubar Panchalla, (*c*) Jenborehalla, about a furlong east of Budurtal Kolachi, (*d*) Netkalgudihalla, about 2 furlongs west of Netkalgudi, (*e*) Sarati river, about 1 mile east of Pachkatte, (*f*) Nagarhole near Madanahalli kadu and ends at the eastern extremity of reproduction block in Metikuppe Forest and Kakkere (Kavalidurai) cart-track to Coorg. West.—(*a*) Malabar Forest from Kaivara to Kuttad, Murkal, (*b*) Coorg Forest, from Kuttad Murkal to Karmare Kirkal and (*c*) Viranahosahalli State Forest.
4	Kakankote Forest	55 sq. miles.	North.—Bisalavade road. South.—Kabbani river from Udburkadu to Sadikahalla. East.—Starting from Udburkadu and going north the demarcation line (21 feet broad) encloses S. No. 1 of Tenkal village, then passes through Udbur Nos 1 and 4 through Karapur survey No. 1 through Nissen S. Nos. 54 and 55 round part of southern boundary of Bellatur Nos. 70 and 68 both of which are enclosed and along the eastern boundary of the latter, thence diagonally in a north-western direction through No. 17 of Hallemagge and then through No. 17 of Manchagaudanahalli which is excluded. West.—Malabar State Forest.

No.	Names of Forests and Plantations.	Area.	Boundaries.
5	Karapur Plantation (teak).	8 acres.	North.—Mysore-Manantoddy road. South.—Gundatur village. East.—Survey No. 16 under cultivation. West.—Kharab S. No. 17.
6	Nissen Plantation (teak).	13½ acres.	North.—Survey Nos. 45, 63 and 64 under cultivation. South.—Survey No. 43 under cultivation. East.—Survey No 41 under cultivation. West.—Survey No. 45 under cultivation.
7	Anechaukur Plantation No. 3 (teak).	67 acres.	North.—Kharab S. No. 14. South.— Do East.— Do West.—Kharab S. No. 15.
8	Manchagaudanahalli Plantation No. 1 (teak).	100 acres.	North.—Manchegaudanahalli boundary line. South —Ragalkuppe plantation. East.—Mysore-Manantoddy road. West.—Kharab S. No. 4.
9	Amrut Mahal Plantation No. 1 block (teak).	55 acres.	North.—Fire line on Antarsante Amrut Mahal kaval. South.—The Kapila river. East.—Amrut Mahal kaval. West.—Mysore-Manantoddy road a lane leading to the river Kapila.
10	Do No. 2.	35 acres.	North.—Lane leading to the river (Kapila). South.—Amrut Mahal kaval plantation land handed over to Sundapur villagers. East.—The Kapila river. West.—Mysore-Manantoddy road.
11	Kapila Plantation block No. 1 (teak)	50 acres.	North.—S. No. 23 gomal. East.—S. Nos. 6, 16 and 22. South.—S. No 1 of Anipur boundary. West.—The Kapila river.
12	Do No. 2.	54¾ acres.	North.—S. No. 19 and Gundatur boundary. South.- S. No. 1 of Anipur village. East.—Gundatur boundary. West.—Kapila river.
13	Bisappanakatte Plantation (sandal).	7¼ acres.	North.—S Nos. 55 and 68 under cultivation. South.—Mysore-Manantoddy road. East.—Kharab S No. 43. West.—Bisappanakatte S. No. 57.
14	Hampapur Plantation (sandal).	327¾ acres.	North.—Kharab S. No. 42. East.—The boundary lines of Haranahalli and Mandanahalli villages. South.—Fire line on kharab S. No. 43. West.—S. Nos. 44, 34, 35, 37, 38, 41 and 40.
15	Viranahosahalli Forest (Hunsur and Heggaddevankote taluks)	About 9 sq. miles.	North.—Starting from the point on the Mysore-Coorg boundary where the Lakshmanathirtha river bends itself to the east and going as the hands of a clock the boundary runs east along the Lakshmanathirtha river adjoining Kachonahalli jungle as far as the village limits of Konanahosahalli from which point it runs south-east and goes along Konanahosahalli survey limits till it joins the Lakshmanathirtha river again, and then runs along the river eastwards, southwards and westwards till it joins a cleared 7 yards demarcation line and passes southwards along the survey limits of Kolavige and south-eastwards along the survey limits of Mudaganur and Chikkahejur *via* Kadagatalkatte and Kurubarpare till it joins Murkalviranahosahalli forest road near Erekatte.

No.	Names of Forests and Plantations.	Area.	Boundaries.
			East.—From the above point the boundary to the east runs along the 7 yards demarcation line *via* Hittalgudu Mayesikattepare till it crosses the three Hebbahallas and joins Hunsur-Heggaddevankote taluk boundary stone situated to the south of Sollepuradaberuhebbahalla. South.—From the last mentioned point the boundary runs southwards along the demarcation line in the Heggaddevankote taluk till it joins the Murkal Metikuppe cart-track and then north-westwards along this cart-track till it joins the trijunction boundary pillars of Coorg, Hunsur and Heggaddevankote talaks called Karamad Murkal. West.—From this (Karamad Murkal) point the boundary runs north-eastwards and northwards along the Coorg and Mysore boundary indicated by boundary pillars and pits up to the starting point *via* Anikattehalla, Chowdikatte and Bhadrikatte Kalpare crossing the Lakshmanathirtha river.
16	Chamrajnagar Forest (Chamrajnagar taluk).	98½ sq mls.	North.—From the boundary marks fixed near Kattekallu Aladamara the line runs eastwards leaving Sulaikallabetta to the left through the following points:—(*a*) Konganakadu Hanumankallu, (*b*) the boundary mark fixed on the top of Kambukallukanave (then the line joins,) (*c*) Muggudde boundary marks fixed near Honnumattibetta the starting point. East.—The demarcation line cut between the forests of Coimbatore and Mysore districts commencing at the tri-junction (Muggudde) of Yellandur, Kollegal and Chamrajnagar taluks fixed on the top of Honnaimattibetta runs southwards through the following prominent landmarks:—(*a*) Attimaradakanu, (*b*) Devigere, (*c*) Kenchanamaranakanave, (*d*) Gersekallu and (*e*) Bellimariare. South.—From the above Bellimariare the line runs westwards through the following points:—(*a*) Siregodihalla, (*b*) Chittanakoppadamale, (*c*) Honnuhole (the boundary line between Coimbatore and Mysore forests on Hunsur side), (*d*) the boundary pillar fixed near Karepalya, (*e*) Chepparada Naibeladabetta, (*f*) Debanamadu, (*g*) Doddana Anebetta, (*h*) Puttada Erana Sonnebetta, (*i*) the boundary marks of Mukanapalya, (*j*) Gulaguddebetta, (*k*) Kumbargundi, (*l*) the boundary marks between Mysore and Coimbatore forest fixed by the side of the Chamarajnagar-Hasnur road for about a mile, (*m*) the boundary marks of Honnegaudanhalli and Sannanapura and (*n*) the boundary marks between Mysore and Coimbatore forests up to the new demarcation line cut near Attakalipur. West.—The demarcation line newly cut from Attakalipur up to Kattekallu Alada tree where the boundary marks of Yelandur and Chamrajnagar are fixed runs through the following points:—(1) Road to Hongalavadi, (2) Allumangudda and (3) Annatomminandiragudda.
17	Padalapur Plantation (Chamrajnagar taluk).	40 acres.	North.—Government waste land. East.— Do South.—Hasnur-Chamrajnagar road. West.—Government waste land. *N.B.*—(This is situated in Padalapur hechirakh village and comprises S. Nos. 11, 12, 13, 14, 15, 16, 17, 18 and part of 20)
18	Maddur Plantation (gall-nut) Gundlupet taluk.	460 acres.	North.—Part of S. No. 34 of Maddur village. East.—Maddur tank. South.—Gundlupet-Sultan's Battery road. West.—Part of S. No. 34 of Maddur village.
19	Hongahalli Plantation.	50 acres.	North.—Part of S. No. 115 of Masahalli village and Hongahalli cart-track. East.—Masahalli gudde. South.—Kunigal village boundary. West.—Part of S. No. 115 of Masahalli village and Hongahalli cart-track.

Letter No. 3529—331, dated 22nd April 1896, from the Conservator of Forests in Mysore.

As desired in Revenue Secretary's docket No. 4392—Ft. 273 of 5th November last to the address of the late Inspector General of Forests, and subsequent reminders requesting to obtain and forward the opinions of Deputy Commissioners on the subject of issue of free licenses to inamdars to cut and remove timber, bamboos and firewood from their inam jungles, I have the honor to forward copies of the marginally noted references from the several Deputy Commissioners of districts in the matter.

(1) Bangalore Deputy Commissioner's No. 409, dated 4th April 1896.
(2) Hassan Deputy Commissioner's No. 122—Ft., dated 3rd February 1896.
(3) Tumkur Deputy Commissioner's No. 959, dated 17th January 1896.
(4) Shimoga Deputy Commissioner's No. 1396—110, dated 20th December 1895 and its enclosure (copy).
(5) Kolar Deputy Commissioner's No. 196, dated 12th December 1895
(6) Chitaldrug Deputy Commissioner's No. 248—83, dated 7th December 1895.
(7) Mysore Deputy Commissioner's No. 501, dated 6th December 1895.
(8) Kadur Deputy Commissioner's No. 241 dated 5th December 1895.

2. Mr. Ricketts in his letter No 657—61, dated 11th September last, reported to Government that he does not "see any objection to the issue of free pass or license by the Amildar for removal of firewood or bamboos from inam villages, though as regards timber" it seemed to him "advisable that the present practice of the District Forest Officer issuing a pass should continue till rules are framed for the use of property marks and for the registration of such marks." From the reports of the Deputy Commissioners above referred to, it will be seen that though the existing practice in the matter slightly varies in some of the districts, yet all the Deputy Commissioners seem to be more or less unanimous in their opinion that licenses should be taken out by inamdars for the removal of the forest products under reference, whether from Amildars or the District Forest Officers, in view to prevent possible smuggling from Government jungles. The restriction placed on inamdars is therefore a wholesome one and I would further suggest in the interest of Forest Revenue that inamdars be made to take out free passes from District Forest Officers for the collection and removal of tangadi (*cassia auriculata*), kakke (*cassia fistula*) and Naibela (*Limonia acidissima*) or toppale (*acacia leucophlæa*) barks and gall-nut (*myrobolans*), which form important items of minor forest products, and that other private landholders also be made amenable to the same rules in regard to the removal of timber, bamboos, firewood and the minor forest products above referred to.

3. I need not invite attention of Government to the fact that the mere passing of rules in the matter is not enough to ensure against smuggling of forest products from Government lands; but much more depends on the earnestness and efficient supervision of local Revenue and Forest Officers, on whom devolves the responsibility of carrying out the spirit of such rules. Further I apprehend no complaint from inamdars and private landholders if only the authorities to whom the power of issuing passes is delegated, promptly comply with their requisitions. Otherwise, it becomes a real hardship to them to have to hang on taluk Revenue or Forest Officers for licenses for days and even weeks together. I hope that in disposing of this subject Government may be pleased to issue necessary instructions for the guidance of these officers.

4. I should, however, mention that in Madras the practice of requiring private landholders to procure free passes before removing timber and other forest produce from their own lands has almost entirely ceased, and is deprecated by that Government, although parties removing timber are required to comply with the rules for the control of timber, &c., in transit, promulgated under the Forest Act, which have the force of law, by registering trade marks, covering it by permits in prescribed forms, but issued by themselves, &c., &c. The theory which is undoubtedly sound is that Government should protect its own forests and secure them from smuggling by an efficient and properly supervised forest staff, leaving private individuals to deal with their forest produce as they like without let or hindrance.

When we have a proper Forest Regulation, settled and well defined State Forests, and properly organized establishments in this province, the same principles should, I think, be applied; but meanwhile the restrictions now suggested appear salutary and expedient in the interests of the State and its Forest Revenue.

ENCLOSURES.

(1) No. 409, dated 4th April 1896, from the Deputy Commissioner, Bangalore district, to the Conservator of Forests in Mysore :—

His No. 1640-47, dated 21st November 1895, and reminders No. 2187-89—73, dated 8th January 1896 and No. 2653—163, dated 24th March 1896, and No. 2993—191, dated 26th March 1896, *in re* issue of free passes by Amildars.

In reply has the honor to state that prior to the receipt of Inspector General's No. 658—39, dated 11th September 1895, mafi licenses were being issued to inamdars from the District Forest office on their applications and after getting the needful information from Amildars; but

subsequent to the receipt of the above letter, the Amildars have been authorized to issue such licenses for firewood or bamboos only.

2. The undersigned is of opinion that the same practice may continue until further experience shows that it should be altered.

---

(2) No. 122—Ft, dated 3rd February 1896, from the Deputy Commissioner, Hassan district, to the Conservator of Forests in Mysore.

With reference to his docket No. 1645-47—59, dated 21st November last, and subsequent reminder No. 2187-89—73, dated 8th January last, has the honor to suggest that Amildars may issue licenses for the removal of firewood from inam villages, provided that the quantity of firewood for which license is required is certified to, as being available in the inam village concerned by a panchayat before the shékdar or the hobli. The shékdar must also report, while returning the license at the expiry of its period, that the quantity licensed for has or has not been removed.

2. Licenses for the removal of timber from the inam jungles may as hitherto be continued to be issued by the District Forest Officers on the quantity of timber available being certified to by Revenue or Forest officials.

3. As regards removal of bamboos from inam villages, there exists no rule at present. Such bamboos are being removed under manuscript chits issued by inamdars. This practice has been giving room for smuggling bamboos from Government jungles.

---

(3) No. 959, dated 17th January 1896, from the Deputy Commissioner, Tumkur district, to the Conservator of Forests in Mysore.

In reply to your docket No. 1640-47—59, dated 21st November 1895, regarding the issue of passes for the removal of firewood, bamboos and timber from inam lands, I have the honor to state that in this district inamdars are not required to take out a pass or license for removal of firewood from their inam lands

2. Under para 2 of Notification No 301 (camp), dated 3rd May 1890, the power of issuing free passes for removal of timber and bamboos (although the latter is not mentioned in the said notification) from inam lands has been delegated to the Amildars and no inconvenience is felt in working the rule. The free pass is issued usually after the shekdar's inspection of the articles to be removed.

3. I am of opinion that any restriction on the removal of firewood from inam lands would be productive of inconvenience to the inamdars. As regards bamboos and timber, the Amildars may continue to grant free passes within certain limits, say five cart-loads, submitting applications for removal of larger quantities for the Deputy Commissioner's orders through the District Forest Officer. Intimation of the issue of such free passes should invariably be given by the Amildar to the Forester or other person in charge of the neighbouring Government Forest, so that smuggling from the latter might be prevented.

---

(4) No. 1316—110, dated 20th December 1895, from the Deputy Commissioner, Shimoga district, to the Inspector General of Forests in Mysore.

With reference to your docket No. 1640-47—59, dated 21st November 1895, requesting opinion on the subject of the issue of free pass or license by the Amildar for removal of firewood or bamboos from inam villages, and in the case of timber by the District Forest Officer under the present practice, I have the honor to state that, under Notification No 301, dated 3rd May 1890, the Deputy Commissioner is competent to authorize any officer subordinate to him to issue the free pass for the removal of timber, wood, &c., from inam jungles. As the object of this rule is only to provide a safeguard against the clandestine removal of timber, &c, from State or District Forests, I think it sufficient to authorize the Amildars to issue the passes after personal inspection of the jungles and due precautions for making in case of timber an inspection of cart-loads of bamboos, &c, before removal by responsible subordinate officials. Duplicate of such free passes may also be sent to the Forest Department whenever the inam jungles are contiguous to State Forests.

3. Docket No. 402, dated 18th instant, from the Deputy Conservator of Forests, furnishing his opinion on the subject, is enclosed in original for information.

Docket No. 402, dated 18th December 1895, from the Deputy Conservator of Forests, Shimoga district, to the Deputy Commissioner, Shimoga district.

His docket No. 1203, dated 29th November 1895, forwarding for opinion copy of Inspector General's No. 1840-47—59, dated 21st idem, regarding the issue of free pass or license by Amildars for removal of firewood, bamboos and timber from inam jungles.

In reply, has the honor to submit that the inamdars in the district have been obtaining free passes for the removal of bamboos and timber from inam jungles, and that firewood is removed by them without such free pass. Bamboos are not mentioned in Government Notification No. 301, dated 3rd May 1890, on the subject.

2. If free passports are to be obtained for firewood and bamboos the Amildars may be empowered to grant them in all inam jungles, except those that are adjacent to State Forests.

3. The Amildars may also be authorized to grant free license for the removal of timber from inam jungles which are not adjacent to State Forests after the rules of property marks are framed.

(5) No. 196, dated 12th December 1895, from the Deputy Commissioner, Kolar district, to the Inspector General of Forests in Mysore.

His No. 1640-47—59, dated 21st ultimo, *re* the issue of free pass or license by the Amildar for the removal of firewood or bamboos in inam villages.

In reply to the above, has the honor to state that the undersigned concurs with the opinion of the Inspector General of Forests on the subject.

(6) No. 248—83, dated 7th December 1895, from the Deputy Commissioner, Chitaldrug district, to the Inspector General of Forests in Mysore.

With reference to his No. 1640-47—59, dated 21st ultimo, has the honor to state that the suggestion made by the Inspector General of Forests in regard to the officers by whom free passes for timber, bamboos and firewood intended to be removed from inam villages is open to no objection and may be carried out.

(7) No. 501, dated 6th December 1895 from the Deputy Commissioner, Mysore district, to the Inspector General of Forests in Mysore.

In reply to your docket No. 1640-47—59 of the 21st November 1895, requesting opinion about free passes for the removal of firewood and bamboos from the inam villages being issued by Amildars, and those for the removal of timber by the District Forest Officers, I beg to state that I concur in your opinion.

(8) No 241, dated 5th December 1895, from the Deputy Commissioner, Kadur district, to the Inspector General of Forests in Mysore.

Inspector General's No. 1640-47—59, dated 21st ultimo.

Has the honor to state that the undersigned thinks that the issue of free passes for firewood and bamboos should be issued by the Forest Officer, and that, as regards timber, the registration of seals on property marks should be made compulsory and the same system carried out as at present is in vogue in coffee estates.

No. 3957-65—Ft. F. 2-95, dated, Camp Mysore, 24th October 1896.

Order thereon.— At the Dasara Representative Assembly of 1894 some of the members brought to notice the inconvenience experienced by the holders of inam villages in having to go to district head-quarters for the purpose of obtaining free licenses for the removal of wood from their jungles. They suggested that such licenses might be ordered to be issued from the taluk offices after an examination of the jungles concerned. The Deputy Commissioners of districts and the late Inspector General of Forests, who were consulted on the subject, expressed the opinion that free licenses might be issued by the Amildars for removal of *firewood*, while as regards *timber* the present practice might be left undisturbed. The Government understand that some of the Deputy Commissioners have already delegated to the Amildars the power of issuing these licenses. The present Conservator of Forests is in favor of the continuance of the existing practice as regards both timber and firewood, and he is further of opinion that inamdars should likewise be required to obtain a free pass from District Forest Officers for the collection and removal of tangadi, kakke, thoppale, gall-nut and other minor forest products.

2. The representation by the members of the Dasara Assembly, referred to above, is only about wood and timber which may be taken to include bamboos also. As regards these items no new rule or order seems necessary. The Notification of 3rd May 1890, No. 301, requires that a pass should be obtained from the Deputy Commissioner, or from such other officer as may be authorized by him in that behalf. There is nothing to prevent the Deputy Commissioner from delegating this power to the Amildars if he thinks he can do so consistently with the protection of Government interests. In using his discretion the Deputy Commissioner will of course take into consideration the hardship and delay attendant upon every application for a pass having to be obtained from the District Forest Officers. A limit may well be fixed up to which the power of granting such licenses may be delegated to Amildars. The Conservator of Forests is requested to report on this point. It is also a matter for consideration whether, when separate Forest Ranges are formed, the Range officers may not similarly be given this power within certain prescribed limits.

3. In regard to the collection of tangadi bark and other minor forest products, before passing final orders on Colonel Walker's suggestion, the Government deem it desirable to obtain full information as to the practice now prevailing in the several districts, and what change, if any, is needed in such practice. The Conserva or is accordingly requested to be so good as to consult the Deputy Commissioners and submit a further report on the subject for the orders of Government.

Letter No. 212, dated the 18th September 1896, from the Superintendent, Mysore Revenue Survey, Bangalore:—

I have the honor to acknowledge receipt of proceedings of the Government of Mysore, Order No. 2144-45—Ft, F. 96-95, dated 17th August 1896, forwarding alienation statements, showing assessed, as well as unassessed lands to be alienated, that is, taken up by the Royalpad and Adagal-Nelavanki State forests, respectively. I return these statements for perusal and reference with regard to the remarks which I wish to submit to Government on the subject of the proposed alienations.

2. It is evidently the opinion of Government that it will be sufficient to write off the accounts the assessment of the portion of the assessed survey numbers taken up for the forests, and, in case of the unassessed lands, that no alteration of the akarband is necessary. I respectfully submit that in alienations of the magnitude of those under reference, corrections should be made in the maps, and this I can do without altering the "Shez" or numbering in the village maps concerned, provided I know what part of the assessed as well as of the unassessed survey numbers are to be taken up as forest. On these points I have no information, and, on looking at the village maps, I find that it is impossible to say, especially in the case of the large unassessed survey numbers, *parts* of which are proposed to be taken up, on what side even the forest is to be formed. In the case of the assessed *part* survey numbers I can assume that the portion to be taken up as forest adjoins the natural forest touching it. It is evident that without proper and fresh demarcations the village accounts will not tally with the akarband and the usefulness of the latter will be impaired.

3. I would first, however, ask why the Forest Department should take up so many *part* survey numbers. Every whole number taken up saves just so much trouble and alteration of the accounts, while part survey numbers entail infinite trouble. Of course, if these lands now selected to form these new State forests are, for urgent reasons, the only lands that will answer the purpose, and the remaining portions of the survey numbers not wholly taken up are necessarily and advisedly excluded from the proposed State forests, I can have nothing more to say, and will make the best arrangement I can under the circumstances. I would only ask that when it is possible to take up a whole survey number it should be done. In the light of the above remarks I would ask the Forest Department to revise the alienation statements now under reference and avoid including parts of survey numbers when such a course can possibly be avoided.

4. On return to me of the alienation statements it will be necessary to depute a Surveyor or well qualified Theodolite-Measurer to demarcate and re-measure the land to be taken up as forest and the land to be left, so to speak, with the villagers. A competent forest official should accompany the Measurer and point out the boundaries of the forests. This is all he will have to do, the Measurer will do all the rest and will prepare his field-books with a view to the correction of the maps and akarband. Had the forests been taken up by whole survey numbers no correction of any kind would have been necessary

5. I would suggest that, with reference to future formation of new forests, the officers concerned should bear in mind the useful rule of taking up *whole* survey numbers, when possible.

No. 3855-64—Pt. F. 96-95, DAIED, BANGALORE, 12TH OCTOBER 1896.

ORDER THEREON—The foregoing letter is communicated to the Conservator of Forests with a request that he will be so good as to report whether, under the circumstances represented by the Superintendent of Revenue Survey, a revision of the boundaries of the State forests in question is not desirable; and, if not, what he would propose to do to remedy the inconvenience brought to notice.

2. When the additional information required by para 2 is furnished with revised alienation statements, a competent forest official will be deputed to accompany the survey Measurer and to point out the boundaries of the forests to be demarcated.

3. With regard to future formation of new forests, the suggestion made in para 5 commends itself to Government, and should be acted upon as far as possible.

No. 3707-9—R. F. 112-95, DATED, BANGALORE, 6TH OCTOBER 1896.

ORDER THEREON.—Shanbhog Venkataramanayya and 26 other members pray for the establishment of an Agricultural Bank at Hongenahalli in the Malur taluk. The Bank is intended for the benefit of the rayats of Hongenahalli and 14 other villages, of which one village named "Vaklera" is attached to the Kolar taluk. The value of the property owned by the members is estimated at Rs. 33,431 with a liability of Rs. 3,675.

2. As recommended by the Deputy Commissioner, Government are pleased to sanction an advance of Rs. 15,000 for the proposed Agricultural Bank at Hongenahalli, and to authorize him to place the said sum in the Malur Taluk Treasury for the purpose of being drawn as required. Interest at 4 per cent per annum should be recovered half yearly from the Bank up to 30th June and 31st December of each year on the sums actually borrowed by the Bank. The Memorandum and Articles of Association received will be returned to the Deputy Commissioner, with a request that he will take steps to get the same duly registered.

3. The total of each of the columns of the statement, showing the property held by the members, has not been inserted in the Deputy Commissioner's office. The omission has been supplied, and the Deputy Commissioner is requested to note the same for future guidance.

Petition No. 814, dated 11th September 1894, from Appegandi of Chendapura, appealing against the order, dated 3rd August 1894 passed by the Deputy Commissioner of Bangalore, fining the petitioner for closing against manuring a certain channel passing through his land in the village of Chendapura, Anekal taluk.

(3) Letter No. 18, dated 4th July 1896 from the same officer, submitting a further report in the case, and stating, with reference to the enquiry in Proceedings No 20765—P. 1617, dated 13th May 1895, as to the provision of law under which the petitioner was fined, that the power to summarily impose fines on people for wilful infractions of the customary rights and privileges of the Government, is a necessary adjunct to the rights and privileges of Government

No. 3815-22—P. 584, DATED, BANGALORE, 9TH OCTOBER 1896.

ORDER THEREON.—The fact that the Revenue Officers exercise jurisdiction in irrigational matters does not authorize them to exercise that jurisdiction in a penal way, except under legislative sanction. But in the case under reference, the act of closing the channel was committed by a patel who is a Revenue official entrusted with the duty of looking after the irrigation channels wherever situated. The appellant is not only guilty of dereliction of this duty in closing the channel on his own land, but his offence has been aggravated by the fact that he contemptuously disobeyed the orders of the Deputy Commissioner to restore it. His punishment under the circumstances was quite proper and necessary. The petitioner ought to have appealed against the order about the channel and not contumaciously persisted in his illegal act of closing it. The evidence now furnished shows beyond doubt that the old channel existed on the petitioner's land and the order to restore it is quite proper. This appeal is, for these reasons, dismissed.

MUZRAI.

Proceedings of the Government of Mysore,

READ :—

The following letter No. 148, dated 12th August 1896, from the Deputy Commissioner, Hassan district.

"I have the honor to submit for the orders of Government the entire records relating to the lands of the Yennehole Rangaswami temple in the Jodi Immadapura village, Holé-Narsipur taluk.

2. The jodi village has been surveyed and in December 1895 settled by the General Assistant Commissioner at the request of the pujaris who have been hitherto the managers of this Muzrai institution. The extent of the village is 490 acres. 32 guntas, the beriz Rs. 246-4-0 and the jodi including quit rent, &c., Rs. 153-13 0.

3. The difficulty has cropped up in the determination of the rights of the cultivators of the lands. Most of these rights are of very recent origin In the case of six raiyats it is difficult to determine when they and their predecessors in title obtained their possession, they claim to be entered as pattadars, but this is inadmissible as there is nothing to show that they were kadim tenants, on the contrary, the nature of the terms under which they hold indicates that at the best they cultivate under the batayi system, paying a portion of the produce with or without a certain money payment The pujaris whose possession must have been of a much earlier origin, deny that the raiyats aforesaid are anything but vara tenants or tenants from year to year and object to their being treated as pattadars offering to accept a similar treatment for themselves.

4. It was for this reason that during the settlement of the jodi lands the General Assistant Commissioner was instructed to enter the khate of each survey No. in the name of the deity with the raiyat in immediate enjoyment as sub-tenant.

5. The Survey Superintendent objected to this course, remarking that either the raiyats should be made pattadars or the deity should be so treated with the pujaris or agents as the persons responsible for payment of the kandayam. The latter course appeared to me the most reasonable under the circumstances and I intimated to the Survey Superintendent that I was prepared to do so But he now suggests that a reference should be made to Government on the ground that the raiyats would not be benefitted under this course. I need hardly state that the question involved is not one of advantage to the raiyats or otherwise, but what are the rights of the raiyats now cultivating the land and those of the temple

6. In an exactly similar case, of lands belonging to the sarvamanya Sravanabelgola matt, Channarayapatna taluk, the Government were pleased to decide as follows —

'After careful consideration the Government are of opinion that none of the raiyats in ques-'tion can be regarded as kadim tenants as defined in the Revenue Code and that they are mere 'tenants at will under the inamdar.'

'The Government has no right to create new occupancy rights by conversion of Batayi into 'Nagadiyat in an inam village under Government administration on trust, unless it can be shown 'that such conversion is for the benefit of the inamdar. In the present case, it is abundantly 'clear that the matt will lose by the conversion, and the Government accordingly direct that the 'lands in question be registered in the khate of the matt, and leased to the present cultivators on 'an annual tenancy on the rent hitherto usual. *Vide* Government Proceedings No. 1726-72, 'dated 6th June 1889.

7. I may note for consideration that if the lands are confirmed in the names of the raiyats, the advantage to the temple will be extremely small indeed being the difference between the beriz and the jodi or about Rs 90 only—a very inadequate revenue for its maintenance in good order, for the carrying on of the religious festivals and for the adequate remuneration of the servants."

No. 522-3—Muz. F. 25-96, DATED, CAMP MYSORE, 13TH OCTOBER 1896.

ORDER THEREON.—The Government observe that the temple cannot afford to grant new rights to the cultivators of its lands. Where kadim tenancy rights in favor of the raiyats do not already exist, the temple through its pujari should be registered as the holder of the lands and the best arrangements made for their cultivation under an annual tenancy.

Muzrai Secretary.

Correspondence ending with the Muzrai Superintendent's Memo, dated 1st October 1896 regarding the Muzrai temples and other charities at Sivanasamudram

---

No. C. 10-12, DATED, CAMP MYSORE, 17TH OCTOBER 1896.

ORDER THEREON.—The villages of Purigal and Kaglipura in the Malvalli taluk were granted in 1829 to the Jahgirdar of Sivanasamudram for the maintenance of the temples and other charities established by him at Sivanasamudram. These villages have also been subsequently confirmed during the inam settlement as devadaya grants.

2. But from reports received, the Government find that these institutions are all now in a much neglected condition, the temple buildings being out of repair and the services therein not performed regularly; while the other charities have altogether ceased to be maintained.

3. The revenues from the two inam villages in question are not applied for the purposes of the institutions to which they have been granted; and it has further been brought to the notice of Government that certain culturable waste lands of these villages have been given away to certain private individuals by Raju Mudaliar, the Jahgirdar's agent, without malki sale, while such sale would have fetched about 3 or 4 thousand rupees to the temples.

4. Shortly after the demise of the late Jahgirdar in 1885 and at the time the Jahgir estates, inclusive of the two inam villages above referred to, passed into the hands of his widow Unnamalai Ammal, as mother and guardian of the present Jahgirdar, who is a minor, a detailed inventory of the movable properties left by the deceased Jahgirdar, inclusive of the jewels belonging to the temples, was prepared and signed by the guardian and also by her brother Raju Mudaliar who was then appointed as the Jahgirdar's agent. According to this inventory, a copy of which is in the records, the temples should possess jewels to the value of Rs. 16,898-8-0 as detailed below :—

				Rs.	a.	p.
Jewels set with precious stones		...	..	5,985	0	0
Gold jewels	...	...	...	1,853	0	0
Silver jewels	...	...	...	9,060	8	0
				16,898	8	0

But these jewels are not now forthcoming in the temple. The agent Raju Mudaliar states that all the valuable properties left by the late Jahgirdar are secured at the Jahgirdar's house, but that he could not single out the jewels belonging to the temple from the family jewels belonging to the Jahgirdar personally.

5. In these circumstances the Government consider it best in the interests of the temples to take away their management from the hands of the Jahgirdar's guardian and agent, and accordingly direct that the institutions and inam villages attached thereto be taken over and maintained until further orders by the Muzrai Department. All property, both movable and immovable, belonging to the temples should be formally taken charge of by an officer deputed for the purpose by the Deputy Commissioner, Mysore district, who will also submit for the further orders of Government a detailed report explaining the extent and value of the properties so taken charge of with a note of any deficit that might be found in the temple properties and not properly accounted for by the Jahgirdar.
